Web and Android Developer

EDUCATION

SSLC - 89%

- Setupati Higher Secondary School (2020)

HSC - 93%

- Setupati Higher Secondary School (2022)

B. Tech in Information Technology – 8.94(CGPA)

- Velammal College of Engineering and Technology (2026)

PROJECTS

MediTrack App

- Engineered a feature-rich medication tracker in Java using Android Studio.
- Integrated intelligent alarm scheduling, real-time notifications, and customizable user settings to ensure timely medicine intake.

Contact manager Application (Contact Sphere)

- Built a full-stack Contact Manager app using React (Vite), Node.js, and MongoDB with JWT authentication and full CRUD features.
- Used Postman for API testing and MongoDB for storing user and contact data securely.

INTERNSHIPS

Full Stack Web Development - Reccsar Private Limited – Madurai

Duration: (20th December 2023 – 4th Jan 2024)

- I completed my internship at Reccsar Private Limited, where I learned full-stack web development using HTML, CSS, JavaScript, and MongoDB. Working on a project called ContactSphere using React and Node.js helped me improve my skills in both frontend development and backend API handling.

SKILLS

Technical: Java, C, SQL, Android App Development

Tools: Android Studio, Apache Netbeans, Postman

Soft Skills: Quick Learner, Fast Worker, Time Management

EXTRACURRICULAR AND LEADERSHIP ACTIVITIES

- Actively participated as a core member in organizing a technical workshop conducted by the IT Department, gaining experience in event coordination and teamwork.
- Served as Class Leader, coordinating between students and faculty while building leadership and communication skills.
